### RETURN OF WAR DEAD

President Truman inaugurates the program for Return of World War II Dead in a message which he hands to the Quartermaster General of the Army Major General T. B. Larkin. This ceremony at the White House was attended by Under Secretary of War Kenneth C. Royall. Mr. Truman's message states: "In deep and everlasting appreciation of the heroic efforts of those who, in keeping their country free, made the supreme sacrifice in World War II—the entire Nation has been dedicated to disposing of the mortal remains of those honored dead in a manner consistent with the wishes of their next of kin."

This message is part of the brochure which will be sent to next of kin by the office of the Quartermaster General at the time next of kin are officially requested to state their wishes regarding final burial.

## Babson Sees 1947 Good Business Year; Inflationary Trend Due To Continue

By Roger W. Babson.

One great event of 1947 will be a beginning of a movement of population from the big coastal cities to the small interior cities, unless definite steps are taken for world disarmament.

### General Business.

A year ago the U. S. Babsonchart registered 130. Today it is estimated at 160. The Canadian Babsonchart registered 190 a year ago. It is today estimated at 204. Some time during 1947 these charts will register higher figures.

Reconversion of industry from war to peace has been completed although the great government surpluses have not yet been disposed of, leaving much more to be sold in 1947.

Inventories, quoted both at their price values and their volumes, will increase during 1947. Both raw material piles and manufactured goods will be in greater supply in 1947.

### Commodity Prices.

Some rationing priorities may continue into 1947; but both will rapidly be eliminated. Government regulations will gradually be lessened. World War II will officially be ended.

The retail prices of most manufactured products will be higher some time during 1947 than at present. The prices of some of the food products may decline.

The unit sales of some department store will begin to decline some time during 1947, but the sales of food and variety chains may continue at peak figures.

The great question mark of 1947 will be how labor is to behave. Higher wage rates and less production per man inevitably mean higher prices.

### Farm Outlook.

Pending a weather upset, more bushels of corn and wheat and of some other products will be raised in 1947 than ever before in our history. Although some prices may slide off, the total farm income for 1947 should hold.

### 1947 In A Nutshell

**BUSINESS:** To reach higher levels than recorded in 1946.  
**COMMODITIES:** Opposing trends.  
**REAL ESTATE:** Continued good demand for modern suburban homes.  
**LABOR:** Some basic problems to be solved.  
**POLITICS:** Increased foreign troubles.  
**STOCKS:** To work higher.  
**BONDS:** Firmness temporary.

Farmers should diversify more in 1947.

There should be an increase in certain fruits, fish products and vegetables with a decline in prices. The United States will have more to eat in 1947 than in 1946, probably 10 per cent over the pre-war level.

Dairy and poultry product will continue to increase in volume with no increase in price; but fats, sugar and some canned goods will continue short.

Farmers will start in 1947 to work to extend legislation on their parity program due to fear of a collapse in farm prices.

### Taxes.

Texas will not be increased during 1947, and there should be further reductions. More advance taxes may be eliminated altogether.

The federal debt will be decreased during 1947 and the federal budget may be balanced by June 30, 1948.

The cost of living will continue to rise during 1947 due largely to the lack of interest in their work by so many wage workers.

Providing jobs for returning soldiers at satisfactory wages will be a big political task of 1947. There should be jobs for all, but not at the wages desired.

### Retail Sales.

The total volume of all retail sales will be about the same as in 1946. Poor quality goods will suffer, but many items now unavailable will be purchased.

The total dollar value of all retail sales should exceed 1946 with an increase in demand for woolen and cotton goods.

for men's clothing and especially for shirts and underwear.

Wise shoppers will buy only what they need and not grab to storn up on goods not absolutely required.

### Foreign Trade.

The United States will own over 50 per cent of the world's shipping in 1947 and foreign trade will increase.

We will continue our policy of

## Many New Faces In Jones and Fisher County Courthouses Since New Year

True to tradition, there was considerable moving in and out of county offices in the courthouse of Jones and Fisher Counties. A number of new faces are occupying the various offices at Anson and Roby.

In Jones County five new officials were sworn in New Year's Day and assumed their duties. The new officials are Roger Q. Garrett Jr., county judge, succeeding Gilbert Smith; Pots Hudson, county attorney, succeeding J. F. Lindsey; Elzy Bennett tax assessor-collector, succeeding Burt Dean; Herb Roland Jr., county clerk, succeeding Mrs. Ernest Sprayberry; Eugene Spurgeon Jr., county treasurer, succeeding Bill Armstrong. Everett Beavers, who filled out the unexpired term of his late father, entered upon a full term.

Veteran Sheriff Bill Dunwoody was sworn in for his fifth term as chief law enforcement officer of the

## Mercury Hits Low Of 16 On Tuesday

Like practically all communities in the vast domain of Texas, Hamlin and surrounding areas were gripped firmly by winter's icy hands this week, with the weatherman promising no relief in the immediate future. Thursday afternoon a new "norther" was reported heading into Texas.

### Bags 16-Point Buck On Christmas Hunt

Mr. and Mrs. O. W. James have returned from Llano where they spent Christmas with her brother, Mr. and Mrs. W. B. Smith and family, at their ranch home. While in the hill country, Mr. James went deer hunting and bagged two bucks, including a 16-point specimen believed to be "tops" reported by local hunters. He also killed one with eight points. To prove his story brought back the usual trophies.

### Stamford Takes Over Arledge Field Jan. 1

Arledge field was taken over by the City of Stamford for operation as a municipal air field on January 1, Mayor A. C. Humphrey has announced.

The field, which has been in operation as a sales-storage and repair depot for airplanes for more than two years, closed in that capacity on December 31.

Stamford will move all flight activities to Arledge field as rapidly as arrangements can be made with operators of training schools, sales agencies and others, Humphrey said. The municipality was granted right of entry into the field by the War Assets administration some time ago, pending final disposition of the field.

Christmas guests in the home of Mr. and Mrs. C. B. Stone and daughters, Neilda and Recie were Mr. and Mrs. Leaford Stone and Sperland from Celotex, Mr. and Mrs. J. L. McCotex, Mr. and Mrs. H. A. McCotex and Harvie, Lary and Gary, Wright, Hamlin, Jessie Bill Sauls of Flat Top, Mr. and Mrs. R. E. Blackwell of Pringle, Mr. and Mrs. J. A. Proffitt of Stinnett. Dinner was served in mid-afternoon and everyone received nice gifts from the Christmas tree.

### Visitor Honored

Bebe Shelton of Phillips was honored by a number of friends at a party before leaving there for Hamlin where she has been spending the holidays at her home.

### Attends Funeral

Clarence Bailey was in Cleburne Sunday to attend the funeral for his brother-in-law, Marcus Reuel Milton, 72, a Spanish-American War veteran, who died suddenly Saturday morning. He made the trip with Joe Culbertson, who attended funeral services for an uncle in Waxahachie.

Pfc. Lawrence A. (Buck) Joiner was to have reported for duty at Elmendorf Field, Fort Richardson, Alaska on January 1. Pfc. Joiner entered the Air Corps on January 3, 1946 and received his basic training at Sheppard Field, and attended on control at Sheppard Field.

# Congressman Burleson Of Anson Outlines Plans

(Editor's Note: The following article is the result of an interview of Congressman-elect Omar Burleson of Jones County by Robert Wear, staff writer for the Fort Worth Star-Telegram, and is reprinted because of its interest to Burleson's constituents in Jones and Fisher Counties. Burleson will take the oath of office in Washington, Friday.)

Reared on the Bible and hard work in the Middle West Texas mesquite thickets and post-oak hills, Omar

Burleson of Anson, the new "freshman" congressman from the 17th District, will show up in Washington with some very positive ideas when he takes the oath of office in January.

"In the first place, I'm against these ideas that someone should sit up until 12 o'clock at night figuring out ways to spend government money," said the firm-jawed former county judge and county attorney, veteran of Navy service in New Guinea, the Philippines and Okinawa.

Soil conservation, Burleson says, has gone beyond a stage of merely wise planning.

"It is a necessity," he stresses, "because the farm and ranch problems in this area will always be water, and we've got to farm more intensively to conserve the land and conserve water. I'm interested in seeing more water reservoirs, not particularly for irrigation, but to provide water for the farms, ranches and small towns. Water resources are becoming increasingly important as the sub-

face water table recedes steadily. We must study this matter intensively, not merely to try to spend more federal money or to provide employment but as a long range, long vision program."

Burleson says he is interested too, in "putting curb on radical labor excesses."

"I don't favor putting labor back into the place it held in the 1920's," he explains, "but at the same time I don't want us to carry water on both shoulders. We should repeal the Clayton act and make labor unions subject to the antitrust laws. We should have true collective bargaining but not collective coercion. There must be drastic revision of the Wagner act, so it will let organized labor bargain with the employer and not have to call in someone else to bargain for the workers."

Unions, he thinks, should be required to incorporate, to make their contracts binding on both parties.

## Hits Court-Martial Law.

As a result of his Navy duty, Burleson is emphatic that "our court-martial laws are a disgrace to the military and to the whole country."

"As courts-martial are conducted now," he explains, "a boy is not allowed the same technical rights of defense which are premitted the most hardened criminal in civilian courts. On Okinawa, near the end of the war, I was appointed to defend 30 boys held in a 'bull pen' up in the hill, in filth and dirt. Some had been there 30 days without a hearing. Only officers sat on the court-martial board. I obtained 27 acquittals out of 56 trials just by putting to them all of the old Texas criminal law I knew. I relied on the fundamental principal that a man is presumed innocent until convicted, and that you can't convict a man unless you're convinced he is guilty beyond a reasonable doubt."

Born on his father's farm near Anson in 1906, Omar was one of "the five Burleson boys"—and four of them are living. A brother, T. M. farms in Eastland County; Marcus lives at Meadow, near Lubbock, operating a cotton gin, hardware and

mill elevator business; Elmer farms in Jones County.

## Elected County Judge

Omar attended the New Light School and was graduated from the Anson High School in 1924. He worked on the farm during vacations until high school days, then clerked in the Knox Pittard Drug Store in Anson. He studied in Abilene Christian College a year, another year in Hardin-Simmons University at Abilene, then enrolled in the University of Texas in the summer of 1926. The next year he went to Cumberland University in Tennessee, and at the same time studied "case law" in Vanderbilt University, obtaining his law degree from Cumberland in 1929. He was admitted to the Texas Bar that year.

In 1930, when he was only 23, Burleson was elected Jones County attorney, served four years, then was elected county judge in 1934.

In 1929 Burleson married his high school sweetheart, Miss Ruth DeWeese, daughter of Rev. R. D. DeWeese, pastor of the Baptist Church in Anson. Burleson himself was reared in the Church of Christ and during his tenure as county attorney and county judge continued to teach a Sunday school class in that church. His mother, widowed since 1918, lives in Anson.

## Politically Ambitious.

Burleson admits he was "politically ambitious all along," but when the national emergency became acute in 1940, he resigned from the bench and entered the service of the FBI, working out of offices in Indianapolis and Cleveland. He resigned from that work in 1941 and went to Washington to assist Congressman Sam Russell. He as general counsel for the National Capital Housing Authority in 1942, but in December that year was commissioned in the Navy. He had sea duty on a destroyer in the North Atlantic, then was assigned to intelligence duty in San Pedro, went to the Aleutians in 1943 and to New Guinea in 1944 as a "boat officer." He returned from Okinawa a year ago, and was discharged.

### Judge Garrett to Head USO Drive

Judge Roger Q. Garrett of Anson will head the next and final USO campaign in Jones County which will place the first of the year, Governor Coke R. Stevenson, general chairman, announced today.

"With the capable leadership of Judge Garrett, I am sure Jones County will succeed in raising its quota in the state drive for \$800,000," Governor Stevenson said.

Headed by Col. Carl L. Phinney of Dallas, president of the 36th Division association and state campaign chairman, Texas' 254 counties have been divided into six regions made up of 66 districts. Robert L. Anderson of Vernon is chairman of the West Texas region.

Plans are now being made for the Jones County drive which is tentatively scheduled for late January or February, Judge Garrett said. Community leaders who will work with Judge

### EX-ARMY NURSES BUY A HOSPITAL

These two ex-Army nurses recently bought a hospital at Seguin, Texas, and are obviously happy about the whole thing. The neat 21-bed stucco structure is pictured at the top. Nurses Dorothea Siepmann (left) and Sarah Hazard said the hospital, purchased with the aid of an RFC and Veterans Administration guaranteed loan, was the realization of a life-long ambition. Surgical work is handled by doctors in the small Texas community. During the war Miss Siepmann served in England and Miss Hazard in China.

Garrett will be announced at a later date.

Colonel Prinney joined Governor Stevenson in thanking Judge Garrett for assuming leadership in the state drive.

"There are about 120,000 Texans still in the service, approximately 425 from Jones County, who are in hospitals, overseas or beginning training," Colonel Phinney said. We must see to it that USO services are continued for these men who need and deserve a 'home away from home' now more than ever."

## Dublin Girl Wed Last Sunday to Alvin Johnson, H.-S.U. Star

In a ceremony read last Sunday, December 22, at the home of the bride's parents in Dublin, Isla Faye Berna, daughter of Mr. and Mrs. H. A. Berna, became the bride of Alvin Johnson of Dublin, formerly of Hamlin. The Rev. Oby Nelson, Baptist minister read the rites. The bride wore a blue dressmaker suit with white blouse and other accessories of brown. Her corsage was an orchid. Mrs. T. P. Johnson attended her sister as matron of honor, and best man was T. P. Johnson, brother of the bridegroom. Mrs. Johnson is a graduate of Dublin high school and has been employed by Southwestern Bell Telephone Co. Mr. Johnson is a student at Hardin-Simons university and is captain of

the Cowboy football squad. He is a graduate of Hamlin high school, where he was a star player. The couple will live in Abilene. Among the guests were Mr. and Mrs. Jack Elison of Abilene and Hamlin and Mr. and Mrs. Melvin Henderson of McCaulley.

## Alathean Class Has Yule Party

Annual Christmas party for members of the Alathean Class, First Baptist Church, was held in the basement of the church. Mrs. Vera Davis had charge of the gift distributions. Gifts were presented to the class teacher Mrs. K. A. Crockett, assistant teacher, Mrs. John Howell and class mother, Mrs. M. Y. Wilson. Mrs. Tom Vaughn, class president, presided for the short business meeting. Mrs. Alton Clemmer told the Christmas story with pictures. Mrs. Jack Grogan at the piano, while Mrs. Carl Young led the members in singing several Christmas carols. The class contributed two baskets of food as love offerings for Christmas. The party hostesses, Mrs. Alton Mayfield, Mrs. Vera Davis and Mrs. Jack Collins served refreshments to the following members: Mmes. D. T. Stephens, Bonnie Bingham, B. A. Shaffer, Irene Dutton, Geneva Neal, Omega Smith, Grace Hart, Jewel Hargrove, Thomas Ferguson, I. D. Miller, John Walton, Weldon Carter, John Howell, Elmo Bellah, Mayme Deel, O. G. Harvey, Jack Grogan, Clyde Carroll, Carl Young, Alton Clemer, Howard McLaughlin, M. Y. Wilson, R. A. Crockett, Tom Vaughn, Cecil Brown, B. W. Niedecken, J. C. Hodges.

## Vows Exchanged By Couple December 18

Georgia Patterson of Eastland and James W. Rush of McCaulley were married Wednesday evening, December 18 at 11:30 p. m. in the study of Rev. Milard A. Jenkins of the First Baptist Church of Abilene. They were attended by Joyce Broadwell of Colorado City, Denis Patterson of Lueders, Sue Perdue, Aude Lee Allison and Mr. and Mrs. John Clowdus of Abilene. The bride, daughter of Mrs. Rosa Bishop of Eastland was attired in a blue dressmaker gabardine suit with black blouse and accessories. Her corsage was deep red carnations tied with a black ribbon. They will reside in Abilene.

## Couple Married Here Last Monday Night

Tula Cooper of Seminole and L. N. Foster of Odessa were united in marriage at the Hamlin Church of Christ Monday evening, December 23, with J. Cleo Scott saying the rites. Only members of the immediate family were present. He is the son of Mr. and Mrs. J. H. Foster of Hamlin. They will make their home in Odessa where are both employed.

## Blessed Events

Born to Mr. and Mrs. Gean Been in a Sweetwater hospital a boy weighing six pounds, 12 ounces. The young mans name is Eugene Carlton, and was born Christmas Day at 8 a. m. Mrs. Been will be remembered as Jaunita Elkins.

## Billy Donham and John Pat Collins Married Saturday

Billy Donham and John Pat Collins were united in marriage Saturday, December 28 at 1 p. m. at the Calvary Baptist parsonage by the Rev. W. E. Nunn. The bride wore a powder blue dress with black accessories and carried white carnations. Attendants were: Mrs. Bill Donham, Anna Dutton and Alfred Altum. The couple will make their home in the home of John Collins until the bride finishes school.

## Junior High Class Has Christmas Party

The 8-A class of Junior High was honored with a party on Friday night December 26. The hostess, Mrs. W. L. Fletcher Jr. was assisted by Mrs. K. L. Kite and Mrs. D. C. Rogers. The Fletcher's home was beautifully decorated in Christmas colors and mistletoe hung from door ways and windows. Games were played and carols were sung. Popular recordings enjoyed. At the close of the evening delicious refreshments were served to the happy group, after which they went Christmas caroling.

## The Gospel of Christ God Is Not The Author of Confusion

Why is there such confusion in regard to understanding of the Bible? Someone will say, "Simply because we can't see it alike." But with our natural eye we all see the optical chart alike unless we have impaired vision. If we can see this principle in nature, why can't we recognize its existence in the soritural realm? There is harmony in God's Word just as there is in nature. Paul pleads in 1 Cor. 1:10, "Now I beseech you, brethren, by the name of our Lord, Jesus Christ that ye all speak the same thing and that there be no divisions among you; but that ye be perfectly joined together in the same mind and the same judgement."

That the religious world has ignored the plea of the Spirit as stated in Paul above is evident. Has God then, required more of man than is able to do? Certainly not! — J. Celo Scott, Minister, Church of Christ. (To be continued) (Paid ad.)

making foreign loans, provided the borrowers will agree to spend a fair proportion of the money in America. Both the British Empire and Russia will keenly compete for foreign trade during 1947; but cartels and government monopolies will be frowned upon. Throughout 1947 war talk will continue, the thought being that sooner or later England—who is truly in a terrible predicament—will “shoot” to stop further Russian aggression.

## Labor.

Even President Truman's “18½ cents” will be forgotten during 1947. The year will be noted for threat-

ened strikes and labor disturbances. Industrial employment during 1947 could be up both in hours and in pay rolls, the labor leaders' discouraging attitude notwithstanding.

Many industries, now operating on a 40-hour week, will return to longer week during 1947. There will be no wage reductions and some further advances.

The government will try to demand better management and closer labor-management relations. Such prospects are not bright for 1947, but Congress will repeal or amend some of the present labor laws which are very unfair to management.

## Inflation.

The inflation era, which we have been forecasting for several years, will be in full swing; but the reckless spending of currency will not come until after 1950. The pur-

## Blind VA Therapist

Blinded by a premature dynamite blast while training with the Army Corps of Engineers, Raymond I. Frey, 29-year old Pennsylvanian, recently climaxed three years of successful adjustment to social and occupational pursuits. Aided by the Veterans Administration's rehabilitation program, Frey was graduated from the University of Pennsylvania School of Therapy as a physical therapy technician. He is shown above applying pads for treatment for vascular obstruction to a patient's knee in a VA hospital.

chasing power of the dollar will continue to decline.

All 1947 wage increases will be distinctly inflationary.

Some time during 1947 production in many lines will have caught up with consumption, people will have sent their savings and then there will be a surplus of goods.

If Stalin's health continues good, he will be the world's most powerful man in 1947, even from an economic standpoint.

## Stock Market.

The rails may suffer still further declines some time during 1947. Certain industrial manufacturing and other or stocks will further decline during 1947; but the Dow-Jones industrial averages will register higher prices some time during 1947 than the December, 1946, averages. All depends upon how labor behaves in America and how Russia behaves abroad and upon what the United Nations do as to disarmament.

The safest stocks to buy—considering value, income and safety—will continue to be chain store and recreation stocks.

The year 1946 saw a large decline in certain stocks compared with the averages. Switching will be the outstanding market feature during 1947. Especially watch for bargains in airline stocks.

The stock market will continue to witness a creeping general inflation and no evidence yet exists as to whether the “communistic break” in 1946 was the beginning of a real bear market or only a reaction of a bull market.

## Bonds.

Although bank loaning rates should continue a slowly upward tendency, interest rates in general will remain low through 1947. The money supply is now 25 per cent above normal and government financing demands continued low rates.

Anticipating an expected reduction in federal taxes, 1947 should see a farther falling off in the prices of most municipal and other tax-exempt bonds.

Some high-grade corporation bonds may hold steady, but sooner or later will decline considerably. The Federal Government's 2½'s, which once sold above 106, will sell down to par or new 2½'s will be offered at par. Investors will give more attention to

diversification and staggered maturities during 1947.

More public utilities will be taken over by Federal and other “Authorities” during 1947. Wise investors will consider this possibility when selecting public utilities securities.

## Real Estate.

Suburban real estate will continue in greater demand with still higher prices during 1947.

City real estate may hold its own due to less available space caused by pulling down structures to save taxes and provide parking spaces,—also to disinclination to build due to the present high inflationary building costs. The fear of bombing—in case of a re-opening of World War II—may also be a factor.

Small subsistence farms will continue to increase in price; but large commercial farms may sell for less in 1947 than in 1946.

Building will show a considerable increase. Contracts will be up with advancing prices. The present scarcity of lumber, cement, bricks and labor should begin to ease up in 1947.

Office and residential rents during 1947 may be expected to increase.

1947 will see the beginning of a real building boom which should have started in 1946.

## Politics and Postwar Peace

President Truman now has lost control of Congress and both parties will be playing politics in anticipation of 1948.

Our foreign headaches will become more and more frequent during 1947. What we are going through to re-organize Germany will be repeated in other countries.

The Latin-American honeymoon has passed its peak. The attitude of Argentina will extend to other countries. Our South American troubles will continue to increase during 1947.

1947 should see more religious interest, including more church-going, than did 1946. People gradually are realizing that without a Spiritual Awakening no peace or other plans will be much good. Nations cannot bedepend on to cooperate and stick to their agreements unless they recognize God as their Ruler and Guide. Hence, what are agreements with Russia?

## Be Quick To Treat Bronchitis

Chronic bronchitis may develop if your cough, chest cold, or acute bronchitis is not treated and you cannot afford to take a chance with any medicine less potent than Creomulsion which goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes.

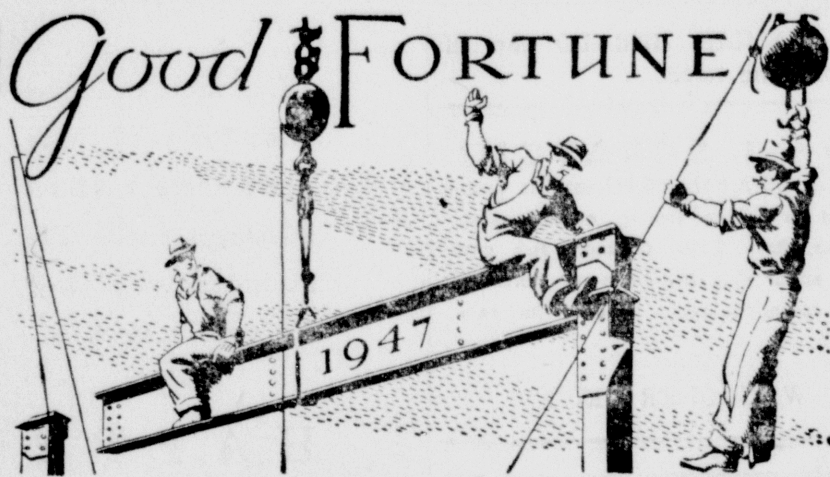

Creomulsion blends beechwood creosote by special process with other time tested medicines for coughs. It contains no narcotics.

No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough, permitting rest and sleep, or you are to have your money back. (Adv.)

Cardui is a liquid medicine which many women say has brought relief from the cramp-like agony and nervous strain of functional periodic distress. Here's how it may help:

**1** Taken like a tonic, it should stimulate appetite, aid digestion,\* thus help build resistance for the “time” to come.

**2** Started 3 days before “your time,” it should help relieve pain due to purely functional periodic causes. Try Cardui. If it helps, you'll be glad you did.

## Holiday Week Tradig to Low Levels in Area

Holiday dullness held both trade and offerings of southwest farm products at low levels during Christmas week reports the Production and Marketing Administration. Price trends were strong on cotton and most livestock, slightly lower on eggs and grains, very weak on citrus, and

about steady for other products.

Important factor in continued strength on cotton is the comparatively small supply in this country although world supplies of foreign cottons are record high. Sales in ten designated markets totaled 103,334 bales compared with 208,800 in the previous week and 66,200 a year ago. Friday's spot prices for middling 15-16 inch were 33.10 cents a pound in Dallas, 33.05 in New Orleans.

Peanuts held steady despite slow demand. With the crushing season about over southwest mill reported

only receipts from Texas and Oklahoma. Buyers of shelled peanuts filled immediate needs with most users well-stocked.

Only scattered cars of prairie hay moved from southwest Kansas. Southwest Oklahoma growers reported no carlot shipments, but sold some trucklots at barns for \$20 a ton. Limited offerings of alfalfa brought fairly steady prices.

A let-up in demand following the holidays weakened the egg market. Current receipts on Friday brought 37 to 40 cents a dozen in Dallas, 40 to 42 Fort Worth, and 35 to 38 Den-

ver. Interest shifted from turkeys to chickens, and fair receipts of hens and fryers found good demand at steady prices.

Seasonally light livestock receipts kept the trend steady to strong except for some weakness on cattle. Early week gains on hogs were maintained to the close at Texas points, but were partially lost in Oklahoma City, Denver and Wichita, although all markets closed \$1 to \$1.50 higher than a week earlier. On Friday, good and choice medium steers were quoted at \$21.50 per hundred pounds in Fort Worth, \$21 in San Antonio,

\$21.75 Oklahoma City, \$21.75 to \$22 Denver, and \$21.35 to \$21.60 Wichita. About the only changes in southwest sheep and lambs were in Denver and Wichita where gains of 25 to 50 cents were reported. Cattle prices had weak spots on steers, cows and bulls in San Antonio, cows and stockers at Fort Worth, steers and heifers in Denver, and on stockers and feeders in Wichita. These were offset to some extent by strength on calves at Texas markets and unevenly higher prices on all classes at Oklahoma City.

## "Fourth Branch"

After the success of the GOP in the November elections, the President requested that a Republican Congress cooperate with a Democratic Executive branch of government. Truman's request received general approval—even from the Republicans.

The President pointed out that the Republicans had won Congress by Constitutional means—while he and his associates controlled Executive functions by Constitutional means. There can be no argument about that. At generally are heartily sick of what we might term the "fourth branch" of government. Sunday's Gallup poll will substantiate that.

This "fourth branch" came into being through Executive orders or "directives." It has been maintained by the Executive branch and consists of the thousands of boards, bureaus, etc., which never endorsed by Americans at the polls. It might be well for the "cooperation" endorsed by the President to start by eliminating this freedom-destroying "fourth branch" the same time it can be pointed out that the elections proved that Americans

## WHAT CONTEMPORARIES ARE SAYING

### Let's Try a Different Approach

Answer to the bogging down of the reconversion program may be found in that one word—strikes. Our guess is that if everyone would pitch in and work that the production that would result would bring down prices to the point where the economic balance would be met. It seems to us that we are approaching it from the wrong angle.

As long as we continue to up wages to meet increasing prices prices are going to increase more and more and wages will be advanced still more. Why wouldn't it be better to produce more and through the production of a as rapidly as possible!

served. The need for merchandise would be filled, reconversion would be speeded, and the economic balance would be adjusted. Under the present plan, no need is being met.—Tulia Herald.

The virtue of prosperity is temperance, but the virtue of adversity is fortitude; and the last is the more sublime attainment.—Bacon.

## Jobs and Pay Rolls McCaulley--- Increase In Texas

(Continued from page three.)

Employment in Texas picked up 4 per cent in November over October and pay rolls 3 per cent according to the University of Texas Bureau of Business Research. These gains pushed both employment and pay rolls to new highs for the year and extended the mid-year upswing.

Compared with November, 1945 employment last month was up 3 per cent and pay rolls 7 per cent.

The Bureau's index of employment in November this year was 119.7, months ago employment stood at the pay rolls index 211.2. Twelve 114.1 and pay rolls at 194.5. Measured against prewar, pay rolls have more than doubled while employment has risen less than 20 per cent.

kennen is the former Kathrine Crowley, the daughter of Mr. and Mrs. Jerry Crowley of this community.

Mr. and Mrs. Melvin Henderson spent the holidays with her parents, Mr. and Mrs. S. A. Johnson in Dublin.

Mrs Frank Maberry passed away in the Rotan hospital Monday, December 23 after months of illness. Burial was in the McCaulley Cemetery under the direction of Barrow Funeral home. Funeral services were held Christmas eve day at the McCaulley Baptist Church with the pastor, Rev. C. E. Dick officiating. She is survived by her husband and seven children as follows: Luther of McCaulley, Frank Jr., San Bernado, California, Jack, Jonesboro, Arkansas. Mrs. Creed Smith, Odessa and Mrs.

Herman Bender of San Bernado, California. All were present for the funeral.

Johnnie and Billie Waldrip were home from Abilene with their parents Christmas.

The new year will again see the republicans in power. Shall we forget Mr. Hoover, when he promised a chicken in every pot and two cars in every garage? Down through the years, history of the republican party means more money for the corporations and less jobs with less pay for the workers.

When the Congress of the United

States is dominated by men of ability who have the masses at heart and plans are worked out whereby year around jobs will be provided for all who wish to work, then will we see prosperity, peace and happiness for all of our people.—A-Darden-O-Gram.

## Three Hamlin Gridders Have Part In Success of Hardin-Simmons Cowboys

Three lads who formerly wore colors of the Hamlin Pied Pipers have contributed largely this season to the success of the unbeaten and untied Hardin-Simmons Cowboys who met the University of Denver Pioneers in the first Alamo Bowl game at San Antonio on New Year's Day.

They are Jack R. Ellison, son of Mrs. J. W. Ellison; Bill Scott, son of Mrs. Frances Scott and Alvin Johnson, son of Mr. and Mrs. Stephen A.

BILL SCOTT

ALVIN JOHNSON

Johnson now of Dublin but who formerly resided at Hamlin.

"Castus Jack" as Ellison is known on the Cowboy squad has filled the regular left guard berth for Coach Warren Woodson all season and was tied for second with halfback Bullet Cook in playing time during the regular 10-game schedule the Cowboys played in winning the Border Conference championship. In addition to football, Ellison earned letters in bas-

ketball and track with the Pied Pipers.

Scott, who is incidentally captain of the 1946-47 basketball squad and who will more than likely see service against the fast Denver crew New Year's Day. Bill also participated in basketball with the Pied Pipers.

Johnson is recognized as one of the greatest quarterbacks in the south-east and has captained the Cowboys through the past season. As a ball handler on Woodson's T-formation style of play, he is unexcelled and was named All-Conference quarterback. He also attends to Cowboy punting chores and has averaged over 40 yards on his boots for the season.
